EDRS PRICE	MF-$0.83 Plus Postage. HC Not Available from EDRS.
DESCRIPTORS	*Annual Reports; Government Publications; *Library Collections; *Library Services; *Public Libraries; State Programs; *Statistical Data

ABSTRACT

Presented in a new format which makes possible statistical analysis and comparison, this annual report includes summaries of special services, as well as statistical reports and studies on public and regional libraries, and two library directories. Special services include long range programs, state aid, the Library Services and Construction Act, library automation, interlibrary cooperation, library development, library services for the blind and physically handicapped, continuing education, and the summer reading program. The 180 public and 24 regional public libraries are analyzed by population, hours open, staff, resources, circulation, and finances. A directory of public libraries with addresses, librarians, and board chairmen is listed alphabetically by city; regional libraries are listed by region number with the address, director, county, and members provided for each one. (JVP)

Report of the Director

With this report, the Alabama Public Library Service introduces a new format that makes statistical analysis and comparisons possible. Computer manipulation of the information received from the state's 180 public libraries revealed some interesting facts. The report presents comprehensive statistical data for all Alabama public libraries. A new feature of this report is the inclusion of a directory listing names, locations and librarians of the public libraries. The Alabama Public Library Service is certain that you will find this report an improved, informative document.

OVERVIEW

A great deal of progress was made during this past fiscal year. Among the notable new programs:

- The Alabama Public Library Service became an active member of the Southeastern Library Network (SOLINET).
- The Blind and Physically Handicapped program benefitted from a $1,213,040 Public Works Act grant which provided funds for a 50,000 square foot addition to the APLS building to house the expanded program.
- Public Administration Service was employed to provide a library systems study.
- The Alabama library community adopted an Interlibrary Loan Code for intrastate borrowing.
- Birmingham Public Library initiated work on the statewide union catalog to be produced in a computer-output-microform (COM) format.
- "Perspectives: The Alabama Heritage" was funded for $200,000 by the National Endowment for the Humanities.
- The statewide Steering Committee on Library Continuing Education was established.
- Additional staff at the state library agency increased its effectiveness in working with libraries in the state.

Each of the above developments is discussed in greater detail in this report.

LONG RANGE PROGRAM

During the past fiscal year, four regional meetings offered the people of Alabama an opportunity for input into the state library agency's long range program for statewide library development. A draft of the revised plan, *Building the Future: The Alabama Public Library Service Long Range Program for Library Development in Alabama, 1978-1982*, was widely distributed for consideration prior to the regional meetings. The regional meetings provided a public forum for discussion fo the draft.

These meetings produced a number of changes which were incorporated in subsequent drafts. After consideration by the public, the Library Services and Construction Act State Advisory Council, and the Executive Board of the Alabama Public Library Service, the long range program was forwarded to state and federal officials for approval.

At the year's end, it was encouraging to note the number of projects well underway or completed prior to the deadline dates specified in the program.

The great majority of the projects are of an on-going nature. In these areas, progress is measured by the level of accomplishment rather than by completion of the project.

STATE AID

There was no increase in state fiscal support for public libraries during the last year. The state aid appropriation for public libraries increased from $160,000 in FY 1974-75, the first year of funding, to $650,000 in FY 1975-76. During a time of financial retrenchment in state government, we considered it an achievement not to suffer a decrease in the FY 1976-77 state aid appropriation of $650,000.

The Alabama Public Library Service continued to refine the guidelines and criteria for state aid eligibility of public libraries. Considerable staff time was devoted to the administration of the program and to consultation with public libraries to insure eligibility. Administration of state aid was assigned to a new position, Federal and State Programs Coordinator.

LIBRARY SERVICES AND CONSTRUCTION ACT

Federal fiscal support for library program development resulted in the disbursement of $658,212, a record amount from Library Services and Construction Act funds. Sixty-seven grants were made to public libraries in Alabama. Proposals submitted were required to meet three major criteria: (1) compliance with the priorities set forth in the Act, (2) contribution to total library development in the state, and (3) initiation of new programs or improvement of library service at the local level.

Library users throughout the state benefitted from grants made to support statewide library services. LSCA funds provided users with greater access to non-print materials through the Alabama Cooperative Film Circuit and the audio-visual services of the state agency. The limited resources of the individual library are supplemented by those of Birmingham Resource Center and the Reference and Resource Center at the Alabama Public Library Service. Cooperative efforts to increase the availability of information in a variety of formats are benefits of the LSCA grant program administered by the Alabama Public Library Service.

All Alabama citizens gained from federal funding of innovative programs to provide library services at the local level. For example, programs of service for the rural and urban disadvantaged, the aging, the handicapped and the institutionalized, as well as those without library service were some of the programs funded to insure that each citizen has access to the state's information resources. Federal funds, supplementing the state and local effort, continue to be a vital part of the support of library development in Alabama. As a result of the Library Services and Construction Act, now more Alabamians receive library service than ever before.

LIBRARY AUTOMATION

Over the past two years steps have been taken to advance library automation in Alabama. Preliminary actions included membership in the Southeastern Library Network (SOLINET), appointment of a Steering Committee on Library Automation, and sponsorship of a major national conference on library automation in Montgomery. These development activities led to the initiation of several projects in library automation during the last fiscal year.

Birmingham Public Library, aided by a $57,000 LSCA grant, began converting its manual card catalog to a computer-output-microfilm catalog in August. The Birmingham catalog, merged with the catalog records of Alabama

SOLINET members, will form the data base for the Alabama statewide union catalog. Another LSCA grant of $31,000 will provide copies of the catalog and COM readers to regional libraries so that library users are insured local access to library resources in Alabama.

Another major automation project for improving library services statewide is the system planned to help provide library services to the blind and physically handicapped. The Alabama system will have on-line inventory control, automated circulation, and patron profiles for automated materials selection. Initial plans for this system were made during this fiscal year.

Preliminary planning occurred for a cooperative automated circulation system for the Montgomery area. Plans for local involvement include the Alabama Public Library Service, Alabama State University, Auburn University in Montgomery, Montgomery City-County Public Library and the Montgomery City-County School System. The cooperative system, one of the first in the nation to involve multi-type libraries, would serve as a pilot for the rest of the state.

INTERLIBRARY COOPERATION

An Interlibrary Loan Task Force consisting of representatives from all types of libraries formulated a new statewide interlibrary loan code. At the annual Alabama Library Association Conference, April 6-8, 1977, the code was discussed and officially adopted by the Association. Needless to say, this was one of the first and most essential steps in the development of expanded and improved statewide resource and reference services.

The next step was the awarding of a grant to the Graduate Library School at the University of Alabama to study what resources exist, where they exist, availability of the resources and need for additional resource centers such as those at Birmingham Public Library and the Alabama Public Library Service. The preliminary findings were inconclusive and further study was postponed until completion of the statewide system study which is also addressing these resource questions.

The system study conducted by Public Administration Service, is to be completed by March 30, 1978. The system study is expected to produce recommendations for the governance and organization of multi-type library systems. Rather than encourage development of regions composed of only public libraries, the Alabama library community mandated the Alabama Public Library Service to seek development of systems involving all types of libraries: special, public, school and academic. It is hoped that the completion of the study will be a significant step toward greater utilization of library resources in Alabama.

When the study is completed, regional meetings will provide an opportunity for comment on the findings and recommendations of the study. The Alabama Public Library Service and the System Development Committee will incorporate suggestions from the public hearings into future plans.

PUBLIC LIBRARY DEVELOPMENT

The necessity of an adequate building for a successful library program was recognized in the efforts of communities to fund and build new libraries. Library building construction, both new and renovated, occurred in Arab, Chickasaw, Fultondale, and Thomasville.

The residents of Birmingham and Tuscaloosa overwhelmingly voted for bond issues to construct new library buildings. In Tuscaloosa, a margin of 5 to 1 in favor of the bond issue assured $2,000,000 for the construction of a desperately needed facility. Birmingham residents voted 4 to 1 for an $11,000,000 bond issue for the construction of a new central library and an additional branch. These local efforts demonstrate that dedicated people can bring about improved library services.

LIBRARY FOR THE BLIND AND PHYSICALLY HANDICAPPED

On October 5, 1976, Governor George C. Wallace approved the transfer of the administration of library services for the blind and physically handicapped from the Special Technical Facility at Talladega to the Alabama Public Library Service as part of its total library service program. The change in administration occurred October 1, 1977. As per the agreement, $344,000 additional funds were incorporated into the Alabama Public Library Service budget for equipment and operation of the Blind and Physically Handicapped library program.

This transfer of the administration of a statewide program of library service to the only state agency created solely to advance library service received the full and enthusiastic endorsement of the various organizations in Alabama which seek to advance the interests of the blind and physically handicapped.

On January 3, 1977, the Alabama Public Library Service was notified that it had been awarded a $1,213,040 Public Works Act grant to construct a 50,000 square foot addition to its present building to house the BPH library program. Construction began in March, 1977, and completion is expected in early 1978.

The addition will be a totally barrier free building designed and constructed expressly for the handicapped. It will contain such innovations as rounded corners, tactile signs, sliding doors, fragrant garden, etc.

With the new building and the addition of adequate staff for this program the Alabama Public Library Service will be in a position to expand and improve the library services program for the blind and physically handicapped.

CONTINUING EDUCATION

The importance of personnel capable of leading the state in library development was emphasized in the work in continuing education. The newly appointed Steering Committee on Library Continuing Education met in May, 1977, to initiate planning for the facilitation of continuing education opportunities within the state. With the endorsement of the Alabama Library Association, the involvement of representatives from all types of libraries, and the support of the state agency, the Committee has completed much of the necessary foundation for a statewide plan in this area.

The Alabama Public Library Service, in recognition of the value of continuing education and the need for state level coordination, established the position of Continuing Education Coordinator. The state agency has committed its resources in support of the statewide effort to increase the effectiveness of personnel in Alabama's libraries.

SUMMER READING PROGRAM

The 1977 Alabama Summer Reading program, *A Trek through Transylvania*, was planned and implemented by the state's public librarians. More than 60,000 children

throughout the state participated in the program at their local public library.

Since its inception in 1971, the Statewide Summer Reading Program has been one of the most effective library activities sponsored by the Alabama Public Library Service. Emphasis on local participation with planning assistance from the Coordinator of Children and Young Adult Services and provision of printed materials from the state agency have resulted in a successful statewide program to reach young people in Alabama.

ALABAMA PUBLIC LIBRARY SERVICE

The Alabama Public Library Service has been the subject of two management reviews. The first of these was mandated by the Alabama legislature when it passed the Sunset Law in 1976. In accordance with the law, each state agency is reviewed to determine the necessity of its existence. APLS was reviewed late in the 1977 fiscal year and was found to be a necessary and important state operation. Additionally, the review committee commended the agency for its operation and accomplishments and recommended additional funding.

In January 1977, the U.S. Office of Education reviewed the agency for its administration of the Library Services and Construction Act program. Two representatives of the Office of Education and the chairman of the State LSCA Advisory Council spent an entire week conducting the review. By the time the written evaluation was received, approximately six months later, most of the deficiencies noted in the review had been corrected.

A major accomplishment of the agency was the employment of additional qualified staff capable of providing leadership and guidance in statewide library development. Key positions for coordination of Federal and State Programs, Networks and Institutional Libraries, Continuing Education, Children and Young Adult Services, Planning and Statistics, and System Analysis were filled to increase the ability of the agency to support an expanding library program. The progress of the past year in all areas of library development proves that qualified staff is an essential component of the library program. The Alabama Public Library Service is moving forward enthusiastically to develop the best possible library service for all Alabama citizens.

The Alabama library community and the Alabama Public Library Service successfully initiated Library Legislative Day in Montgomery on April 6, 1977. Dr. Bessie Boehm Moore of the National Commission on Libraries and Information Science delighted an audience of over 500 in the keynote speech at the legislative dinner. The event was a very effective climax to the first legislative day ever devoted entirely to libraries in Alabama.

Federal Funding and Alabama's Libraries was published on February 3, 1977, by the Alabama Public Library Service. This overview of the federal funding of all libraries in the state was presented to the Alabama Congressional Delegation at the American Library Association Legislative Day in Washington, D.C. The written contributions were by Dr. Harry Philpott, President of Auburn University; George Stewart, Director of Birmingham Public Library; Dr. Wayne Teague, State Superintendent of Education; and Anthony W. Miele, Director of the Alabama Public Library Service.

Throughout the state, libraries are beginning to benefit from increased public awareness of the role of libraries in the educational and cultural life of Alabamians. The program to improve relations with state and federal legislators is a is a step forward for the Alabama Public Library Service.

In the past year, the Alabama Public Library Service took positive steps to increase its participation in the provision of resource and reference services throughout the state. New, exciting advances in automation and the employing of additional professional librarians in Library Operations to work in reference and serials has enabled the agency to increase the effectiveness of its share of the responsibility for interlibrary loan, reference and resource sharing.

The acquisition of a terminal linking the agency to the Ohio College Library Network (OCLC) through membership in the Southeastern Library Network (SOLINET) increased the APLS cataloging capabilities and expanded access to bibliographic data for materials owned by over 600 other member libraries. Thus greater cooperation between libraries in resource sharing and cataloging is possible. In addition to the cataloging of new acquisitions, the cataloging department began inputting bibliographic data for earlier acquisitions by the inputting of 3,034 titles in fiscal year 1977. This bibliographic data is in machine-readable format.

The establishment of the position of serials librarian enabled the agency to greatly expand serial holdings. The collection increased from twenty-five titles to over 250. Supported by the serial holdings, a new reference service, Copying of Periodical Indexes and Contents (COPIC), offers personalized, selective dissemination of information to legislators and state employees. In the first month of service, COPIC delivered 1,479 pages of current periodical information to the offices and legislative chambers of its users.

The resources of the state are enlarged by the agency's 67,000 volume collection. Additionally, there are 276 periodical titles, 21 newspaper subscriptions, and 1,449 items of audio-visual materials. The agency has 8,314 units of microfiche and 1,603 units of microfilm. In the past year, a total of 7,359 items were processed and added to the collection.

The Alabama Public Library Service Executive Board consists of James E. Daniel (Chairman), the Honorable Herndon Inge, Jr. (Vice-Chairman), Mrs. Mildred Phillips and Mrs. Jo Pears. One position on the board remains vacant. Their dedication, support and concern for library service in Alabama have made possible the progress of APLS. Their continued involvement is essential to the well-being and development of libraries in Alabama.

To Governor George C. Wallace and the Legislature, for whom this report was prepared, we are appreciative of your continued support of public libraries in Alabama. Though we still have much progress to make, the Legislature increased the APLS budget from $950,000 in FY 1976-77 to $2,040,000 in FY 1977-78. State aid increased 72%, from 18¢ to 31¢ per capita, for a total amount of $1,056,000. Increased financial support has promoted improved public library services in Alabama.

The Alabama Public Library Service has had an exciting year filled with many accomplishments which would not have been possible without the cooperation of the Alabama library community, an Executive Board that is truly responsive to the needs of the library user, and a dedicated staff. The coming year promises to be an ever more challenging year for Alabama libraries and the Alabama Public Library Service.

Anthony W. Miele
Director

ALABAMA PUBLIC LIBRARY SERVICE

Library Operations Statistical Report
October 1, 1976 - September 30, 1977

Slides	1,344
Phonorecords	593
Cassettes	257
Framed art prints	480
Other Materials	1,586

DEFINITIONS

The annual report of the Alabama Public Library Service includes general library statistics for the year October 1, 1976, through September 30, 1977. Public library statistics are given in two statistical tables. The first is arranged alphabetically by county of location. The numerical code under *Region* identifies members of regions and corresponds to the regional statistics in the second table.

The second table totals statistics for regional headquarters and member libraries. The arrangement is alphabetical by name of region. Because Part II contains a subtotal, the columns do not add up to the total for the state. Additionaliy, since financial reports were from unaudited accounts, *Receipts* and *Expenditures* were not required to balance for this report.

Population reports are from the 1970 Census of the area served by the library.

Total staff in FTE includes all full-time and part-time staff. A full-time equivalent is computed on a thirty-five or more hours work week. Part-time staff is expressed as a decimal fraction of one.

Finances are reported in dollars. Standard rounding off at $.50 was used to eliminate cents in the entries.

Local government receipts are the revenues received by a library's Board of Trustees from all local government sources. The value of services provided by a local government, but not charged to the library budget, is included when a local government provided the actual cost of the service for this report.

Revenue sharing funds are reported separately.

State aid for libraries that are members of regions is reported in the regional headquarters report. In counties without countywide or regional library services, state aid funds are distributed through Library Development Committees. State aid reports for these counties may be entered under either the Committee or the individual library.

Wages and salaries reports do not include fringe benefits such as the employer's contribution to insurance, social security, retirement, etc.

The 1978 Directory of Public Libraries is arranged by city with library name, address, director, chairman of the Board of Trustees, and regional membership. An alphabetical list of regional libraries by name with address, director, counties served, and member libraries follows. A name index for locating libraries in the statistical tables and directory is included.

N/A not available

Footnotes

1. member library statistics included in regional library report
2. includes circulation of all types of library materials
3. includes expenditures for periodicals, newspapers and microforms
4. library not operational for full year of report
5. population includes areas incorporated since 1970 census
6. Leeds City is located in Jefferson, Shelby and St. Clair Counties
7. Includes $5000.00 Library Services and Construction Act funds
8. Pickens County adjusted state aid total $4244
9. Totals adjusted, columns do not add to these totals.
